About Biovet

We operate a CFIA-accredited laboratory, offering a full range of innovative diagnostic services for veterinarians. Our team is always attentive to market requirements and developments and is committed to providing quality products and services every day.

Biovet is also the only Canadian company to develop, manufacture and market a range of high-performance multiplex serology products, ELISA diagnostic kits and qPCR products for animals.

Biovet holds a CFIA establishment licence for veterinary biologics (Licence No: 49).

In October 2019, Antech Diagnostics, a subsidiary of Mars Petcare, acquired Biovet. It was a natural merger of two like-minded organizations with a shared commitment to veterinarians. Now, we have more resources to work with, so we can make our service offering even better for our 800 clients.

BIOVET

Diagnostic Kits

HIGH PERFORMANCE ELISA KITS

FAST - EASY - CONVENIENT - RELIABLE

FAST

Results available in less than 2 hours or within 2.5 hours for most of those kits

Biovet manufactures diagnostic kits with the **highest quality assurance standards.**

HIGH-QUALITY qPCR KITS

FAST

Results in less than 90 minutes.

HIGHLY SENSITIVE

Limits of detection (LOD) around 102 copies per reaction.

Synthetic positive control allowing the setting of standard curves for a wide dynamic range of quantification.

Endogenous Control preventing false negative results.

RELIABLE

Trials validated in silico and with reference strains, field isolates and clinical specimens.

CONVENIENT

Uniform thermal conditions.

Detailed documentation including user manual, quick protocol and certificate of analysis.

MULTIPLEX

Allowing detection of several pathogens simultaneously in the same run.

MFIA DIAGNOSTIC KITS

Biovet MFIA diagnostic kits allow to **simultaneously** detect and differentiate antibodies to **multiple** agents or serogroups of a given agent **in a single assay.**

CUSTOMIZED KITS

Biovet is currently producing customized kits with various antigen combinations **according to specific customer requirements**
