About Biovet

Biovet is proud to offer you unique, quality and innovative products, in collaboration with its partner Neogen. These are powerful tools allowing you to do your tests in-house, for faster results.

Since 1991, Biovet has been operating state-of-the-art laboratories and carrying out microbiological analyses, detection of pathogens, allergens, mycotoxins and GMOs, as well as in the fields of molecular biology and serology (ELISA).

Our laboratory is accredited by the Standards Council of Canada (SCC) for microbiological testing of foods and edibles (see our accreditation scope on our website).

We are multiplying the actions in order to get closer to you with now 2 DIAGNOSTIC SERVICES LABORATORIES in Quebec: SAINT-HYACINTHE and QUEBEC CITY.

Also, our customers appreciate our HIGH AVAILABILITY, since our laboratories are open 6 days and operate 7 days a week.

In addition, Biovet has an efficient collection service that ensures the transport of samples in Quebec as soon as possible, even in the regions.

For further information, feel free to contact your Sales representative.
