Johne’s Disease Serology ELISA Proficiency Test Report 2019

Laboratory

Biovet Inc (Biovet)

Laboratory Score

Overall Score: 30/30
Qualitative: 15/15
Quantitative: 15/15
Percent: 100%

Successful/Unsuccessful

Successful

This rating is valid until the next test is administered.
The laboratory is deemed Successful with one individual obtaining satisfactory results.

Comments

- All laboratories received the same samples. The samples were randomized and assigned to check test serials.
- Laboratories testing Successful will be added to the laboratory listing on the USDA Website.
- Laboratory results were evaluated based on a Qualitative and Quantitative format identification of each proficiency test serum sample. A passing score required determination of the correct answers at 90% or above.
- A passing result is needed for certification.
- The preceding message contains information that may be confidential, proprietary, or legally privileged, and may constitute non-public information. This message is intended to be conveyed only to the intended recipient(s).
- Retesting is available by contacting the proficiency test manager Annette Gomez.
- If you have questions please contact Annette Gomez at Annette.L.Gomez@aphis.usda.gov or 515-377-6839.
